Hello Mr. Caprio,

My name is Kerry Pearson, and I am a Program Associate with the Schuler Scholar Program, a non-profit private foundation based in high schools throughout northern Illinois and the city of Chicago. The Schuler Scholar Program prepares under-resourced, high potential students to succeed at the **most competitive private colleges and universities**. We provide our scholars with academic support, enrichment programs, and college counseling. Here is a link to our website: [www.schulerprogram.org](http://www.schulerprogram.org)

We are in search of high achieving college graduates to serve as **AmeriCorps Math Scholar Coaches** in the 2013-2014 year for our program. Attached is the position description. I will be visiting **Williams College on Thursday, September 27<sup>th</sup> for the Job and Internship Fair** and would ask you to pass along this opportunity to any students you think may be interested. I am aware of the strong math and science department at Williams, and as the Chair of the Economics Department, I am hopeful you can pass along this opportunity to any exceptional seniors.

We currently have 6 Schuler Scholars attending Williams College: Neal A. Ellis, Jennifer Doctolero, Eduard Ciobanu, Jonny Gonzalez, and Irene Castillo.

We are looking for motivated, bright, and charismatic students. **Specific responsibilities include, but are not limited to: conduct individualized math improvement programs for a caseload of 10-15 Scholars, provide academic tutoring in the math and sciences, facilitate math and science after school programs, chaperone college visits, and plan scholar outings.** Overall, our Scholar Coaches are invaluable members of our team and act as mentors to our Scholars. Should you have any questions, please feel free to ask. I greatly appreciate your help!

Thanks again,

Kerry
