From: Mo Zhu <mz@dunwello.com>
To: ssheppar@williams.edu

Hi Professor,

My name is Mo Zhu and I majored in Econ and graduated from Williams in 2011.

I saw that you are involved in the Entrepreneurship@Williams program so I wanted to get in touch. I'm currently working at a startup called Dunwello (recently funded - you can read about us here: <http://goo.gl/FG97U1>) and we are looking for a summer intern.

I'd very much like for that intern to be an eph, as I want to get more of us involved in startups. Would you mind sharing this among current ephs who might potentially be interested, either directly or through list-serv/groups?

Our job posting on route 2 is right here: <http://goo.gl/Tmavbl>

Basically, it's a small company where the intern will get up-close experience and access with a successful entrepreneur. I think it's perfect for someone interested in startups.

And if you have any questions, please let me know.

Thanks,
Mo Zhu
