Users of these data should refer to the extract from the SA Stats Council Census
sub-committee report at <http://www.statssa.gov.za/extract.htm>

Income: Users are warned to use this variable with caution
and to be aware of its limitations. Census 2001 collected income
information from one question on individual income without probing
about informal income, enterprise profits or income in kind.
As a result, the census income is understated for most of the
population. Further direct comparisons with other data sets
cannot be made. The main reason for releasing this variable
in the data is to show patterns and trends, rather than precise
estimates.
